This Administrative Regulations is written in accordance with the guiding principles in Policy No. BA-8.5, Bus Accidents and Resulting Injuries.

1. Accidents on Buses – Driver’s Responsibility

In the event of an accident, the driver's first responsibility is to the passengers and the driver shall

- 1.1 remain with the bus and passengers;
- 1.2 determine, as quickly as possible, if anyone is injured;
- 1.3 immediately use the onboard two-way communication device to report the accident, being sure to give the exact location of the accident to assist police and emergency personnel in locating the scene;
- 1.4 ask for an ambulance to be dispatched, if any children are hurt or complain of minor injuries;
- 1.5 not move any student from the accident site, until the officials at the scene (i.e., police, ambulance, bus driver, or appropriate Board personnel) have jointly agreed to release them, and ultimately, all students shall be assessed and, where deemed appropriate, be sent to hospital for an examination (where developmentally handicapped or non-verbal students are involved, and there is doubt as to whether medical attention is required, they should be sent to hospital for examination); and
- 1.6 attend to injured students while waiting for police, ambulance and a Board official(s) to arrive.

2. Accidents on Buses – Operator’s Responsibility

It is the responsibility of the operator to notify the school and Student Transportation Services immediately of the accident, providing complete details. The school staff will be responsible for contacting each student's parent(s)/guardian(s) as soon as possible and advising them of the accident. Schools should develop a mechanism to ensure staff coverage (with access to a student database) is available at the school for the time required to contact all affected families. Where school staff is not available to contact families, the bus operator shall assume the responsibility.
